

TCG Opal Technical Seminar & Demo

Where:

AIT - Commercial Section
Suite 3207, 32F, 333 Keelung
Road, Section 1, Taipei 110,
Taiwan

[Driving Directions](#)

When:

Thursday April 26, 2012 from
1:30 PM to 5:00 PM

[Add to my calendar](#)

Dear Guest:

This seminar explains the TCG OPAL technology used for the SED (Self Encrypted Device) such as SSD. The presenter will introduce the SED concept, and the use of TCG OPAL in the SED. The presentation continues with the explanation of the TCG Storage Architecture, the roles of TPer (Trusted Peripheral) and SP (Security Provider), and the services provided by these security agents. The presentation will conclude with the testing/validation methodology for the TCG OPAL.

Registered seating is limited so please kindly register before April 20, 2012. We look forward to seeing you there!

Tell them to click on the link below to register or RSVP.

Sincerely,

Yudy Syukur
