DriveMaster 2015 NVMe - Available Now

ULINK is proud to introduce the new **NVMe Mass Storage Testing Tool**. Make sure to get yours today.

Features

NVM Express Revision 1.2 compliance

Testing applications:

- R&D development and debug
- NVMe protocol and command validation
- Regression and data integrity test
- Performance benchmark
- TCG Opal and Enterprise SSC test and validation

Testing capabilities:

- More than 100 NVMe variables
- PCI Configuration Space can be accessed by GUI and instructions
- Additional read and write buffers for Admin commands
- Reset the NVMe HBA
- Power cycle the DUT without interrupting the system power

DriveMaster 2015 Enterprise SAS/FC

It's finally here - the DriveMaster 2015 ENT Serial Attached SCSI (SAS) & Fiber Channel (FC) Test Software.

DriveMaster 2015 Enterprise SAS/FC Applications

- Standard & user defined SCSI Command function testing
- General/overlapped read/write testing
- Mode page testing
- Log page testing
- T10 DIF testing
- External power control of device under test (DUT)
- Support 32 Bytes' CDB and Bi-Direction Commands on Win 8.1
- New Commands to support SPC5, SBC4 and ZBC

Flash Memory Summit 2015

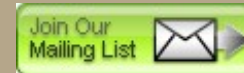

ULINK Technology is participating in the **Flash Memory Summit** in Santa Clara, CA from August 11 ~ August 13, 2015! Come by Booth 811 to check out our latest products and try live demos of our testing platforms. Our team of experts will be there

Issue: August 2015

Latest Versions

DriveMaster Official Releases

DM2015 NVMe v7.0.1010 **New Product*

DM2015 ENT SAS/FC v7.0.1010 **New Product*

DM2012 PRO SATA/PCIe AHCI v6.0.980

Test Suite Releases

ULINK ATA/SATA Protocol: v5.0

ULINK ATA/SATA Regression: v4.0

ULINK SCSI/SAS Protocol: v2.0

TCG Opal App Note: v2.6

TCG Enterprise App Note: v2.6

TCG Opal Test Cases: v3.2

ULINK TCG Opal/IEEE1667 Protocol: v2.3

ULINK TCG Enterprise Protocol: v2.2

SATA-IO Device Digital: v2.6

SATA-IO Host Digital: v1.8a

Coming Soon!

ULINK NVMe Regression Test Suite

TCG Opal Application Note with NVMe Test

TCG Opal Test Cases with NVMe Test

ULINK Opal/IEEE1667 Test Suite with NVMe Test

ULINK SCSI/SAS Protocol Test Suite v3.0
