## Flash Memory Summit - August 6 through August 8, 2019 at Booth # 720

ULINK Technology is participating in the Flash Memory Summit starting August 6 through August 8, 2019. Please drop by **Booth # 720** and check out **ULINK's latest developments of storage testing tools**. We will also *demo* the following *new* products:

- **DriveMaster 8 for NVMe**, a major update for Drive Master NVMe, including new NVMe features supporting 1.3d specifications such as Sanitize, Boot Partition and Replay Protected Memory Block.
- **ULINK Suite Version Updates** for the latest TCG Opal Family Certification Suite (v3.5), NVMe and SATA Protocol Test Suites.
- **ULINK Test Reporter** is a web-based software service designed to manage all ULINK's DriveMaster test results. This is a powerful tool for user to compare testing results based on Manufacture, Model, Firmware and Testing Suite.
- **Drive Analyzer** offers a sophisticated solution to monitor and analyze drive behavior and to predict life expectation of device through machine learning.

Please join us for this exciting event. Our team of experts will also be there to answer your questions about the latest developments in professional mass storage test tools.

Hope to see you at Booth # 720!
