

Check out the latest updates of 3 ULINK TCG Test Suites!

Latest Release

DriveMaster Release

DriveMaster 9: v9.2.1800

Test Suite Release

ULINK NVMe Protocol Test Suite: v5.0

ULINK NVMe Regression Test Suite: v4.0

ULINK SATA/ATA Protocol Test Suite: v9.0

ULINK SATA/ATA Regression Test Suite: v8.0

SATA-IO Device Digital: v4.0

SATA-IO Host Digital: v3.0

ULINK SAS/SCSI Protocol Test Suite: v4.5

ULINK SAS/SCSI Regression Test Suite: v4.0

ULINK TCG/IEEE1667 Opal Family SSC Protocol Test Suite: v10.0 *(New)*

TCG Opal Family SSC Application Note Test Suite: v5.5 *(New)*

TCG Opal Family Certification Test Suite: v6.0 *(Coming Soon)*

TCG Opal Family SSC Multiple Namespaces Protocol Test Suite: v2.0

ULINK TCG Enterprise SSC Protocol Test Suite: v5.0

TCG Enterprise SSC Application Note Test Suite: v5.0

Test Reporter Release

Test Reporter: v4.4.1

All 3 TCG Test Suites Updates

Add the support to retrieve current LBA format before DUT is set to one namespace over full disc

ULINK TCG/IEEE 1667 Opal Family SSC Protocol Test Suite v10.0 Updates

New script - RangeStartLength_Revert: test the values of RangeStart/Length columns in the Locking table after AdminSP.Revert, LockingSP.Revert and RevertSP

HardwareReset/TPerReset: Add new cases to verify the values of Read/WriteLocked and Done columns if HardwareReset/TPerReset is not included in LockOnReset and DoneOnReset columns in the Locking and MBRControl tables respectively

Additional_DS: Add new cases to verify new UUIDs added to the ACE table and new entries to the AccessControl table according to the Additional Datastore Tables spec. v1.01

Enhancements:

- Add the handling to correctly retrieve whether IEEE1667 is enabled/disabled if DUT supports IEEE1667 protocol
- Add the handling to support the number of UID > 200 in all tables and the number of UID up to 2200 in the ACE table
- D3_C_PINSet: Add the handling to set SID's PIN to MSID's PIN if StartSession method with the new SID's PIN failed
- D4_LockingSet_Read/WriteLock: Add the handling to check the support of MBR Shadowing if device only supports GlobalRange and Range1
- D5_MBRControlSet: Add the handling to skip the tests that require multiple ranges if device only supports GlobalRange
- Authenticate: Add the handling to use MSID's password instead of an empty value when authenticating as Admin1 in the LockingSP
- Authenticate: Add the support to invoke Authenticate method with the same authority if the number of Users and Admins is less than MaxAuthentications
- StartSyncSession_SessionTO: Add the handling to take care of MinSessionTimeout < 10 ms
- C3_Get_ObjTable_LockSP_All, C5_GetACL_Table_LockSP_All: Add the handling to check the session timeout during invoking Get and GetACL methods

TCG Opal Family Certification Test Suite v6.0 Updates *(currently under the review of TCG SWG) - **Coming Soon!***

TCG Opal Family Certification Test Suite v6.0 supports **TCG Storage Opal Family Test Cases Specification v1.01**
