

Storage Device Testing Made Easy

Complete Protocol, Regression and Security Testing for SSDs and HDDs

USB/SATA/SAS Power Adapter (USPA) Is Now Available!

USB/SATA/SAS Power Adapter (USPA) is designed to control the power of USB/SATA/SAS device without disturbing the system power. It enables certain testing features of ULINK's DriveMaster test tool, particularly in TCG tests over USB or SATA/SAS interface, and SATA/SAS Protocol/Regression tests.

General features:

- Supports USB/SATA/SAS mode
- Supports SATA Device Sleep feature
- LEDs for quick assessment of the status of the bus and board
- USB – Supports 5V
- SATA/SAS – Supports 12V, 5V and 3.3V
- Support up to USB 3.0 Data Transfer
- Support up to SATA Gen3
- Control using toggle switch and DriveMaster
- Measure both Power Voltage and Power Current on all power sources

This adapter is now available for sale. Please contact sales@ulinktech.com for details.
